Message from the Principal

Willes Little Flower School & College was established in 1956 with only 30 students. At present, nearly 10,000 students are studying here in 2 shifts. We have English medium from KG-I to A’Level, Bengali medium from KG to HSC and English version from class I to HSC in National Curriculum. The total faculty members for the school and college is 300. We also have a section for mentally and physically challenged students with specially trained teachers. The college is situated in the heart of the city at 85 Kakrail, Ramna, Dhaka, Bangladesh on a large campus.

The pass rate in all the public examination is satisfactory. Our students regularly learn music, drawing, and sports such as basketball and cricket as part of their co-curricular activities. They also participate in the annual science fair, cultural programs, essay and debating competitions.

Our college has separate and well-equipped laboratories for science and agriculture subjects. We also boast a well-stocked library and up to date computer lab with 100 computers for students to use. We have an information center to help the guardians with their queries.

Our Motto is “Light, More Light”. We consider it our solemn duty to brighten our students’ lives with the light of knowledge and education. We train them in a way so that they are up to date and successful in their endeavors to face the challenges of life.

I welcome you to our website to give you more information about the college. Thank you!

Lt Colonel Md. Alamgir Hussain, AEC
Principal
Willes Little Flower School & College
